Protecting Seniors Online from Dr. Croissant Addresses Scams, Hacks and Tax Fraud

The vast majority of seniors today are using the Internet at least once a week to check email, pay bills online and keep in touch via social media. But all that time online puts them at risk for scams and hacks, such as tax fraud.

In fact, a new survey by Home Instead, Inc., franchisor of the Home Instead Senior Care network, found that 67 percent of surveyed older adults have been the victim of an online scam or hack.

Encouraging seniors to practice cyber security can go a long way toward protecting their identity and sensitive financial information. Home Instead collaborated with the National Cyber Security Alliance to create Protect Seniors Online, available at www.ProtectSeniorsOnline.com, a free resource that educates older adults about cybersecurity. Here, seniors can test their cybersecurity skills with the "Can You Spot an Online Scam?" quiz.

Older adults can take the following steps now to protect themselves online:

*Password protect and secure

devices, accounts. Lock all devices (including computers, tablets and smartphones) with secure passwords in case devices are lost or stolen.

*Think before clicking. When faced with an urgent request -like emails asking for money -think before clicking or get a second opinion. Clicking on links is often how scammers get personal information. When in doubt, trash an unusual message.

*Share with care. More than half (51 percent) of seniors surveyed by Home Instead use social media to stay connected. Use care when sharing personal information, adjust privacy settings to limit who can see your information, and turn off location sharing.

*Use security software. Install anti-virus and anti-spyware software and program it to run regularly. And be wary of pop-up ads or emails, many of which contain malware that can infect computers.

*Log out. Log out of apps and websites when you are finished. Leaving apps and websites open on computer screens could make you vulnerable to security and privacy risks.

*Recommend support. Older adults who live alone may need help from a trusted source -- such as a family member, tech-savvy friend or professional caregiver --to serve as a second set of eyes.

Environmental Issues

By Lois M. Shade Former Mayor of Glendora

GLENDORA - Why is environmental planning and care more Republican than Democrat?

Rt. 66 Republican Koffee Klatchers at their monthly meeting asked that question of Dr. Ann Croissant, Professor Emeritus, former faculty member at Cal Poly Pomona and Azusa Pacific University and founder of two non-profit environmental organizations, San Gabriel Mountains Regional Conservancy and the Glendora Community Conservancy.

Ann pointed out John Muir, not a democrat, founder of the original Sierra Club, had many conversations and communications with Republican President Theodore Roosevelt. History tells us Muir, in efforts to save Yosemite Valley, took Roosevelt on a camping trip to Yosemite, camping out under stars, in the snow, and allowed Roosevelt to see the beauty and necessity of protecting the Yosemite Valley. And, three years later, Yosemite, though legislation became federally protected.

Muir and Roosevelt believed the best way to protect the environment and an area like Yosemite was through government control and management. But is that true today?

Dr. Croissant believes we have choices when it comes to the protection of the environment and it is time to review those and find the best fit for today's economy and population needs. In the San Gabriel Valley, this drought we are in has hit home our need for enough watershed to protect the water basin and our drinking water supply.

Is a faraway federal government in Washington, D.C. still the best choice for us in the San Gabriel Valley? Croissant believes in looking at those other options that include enjoining property owner responsibility agreed to through constructed agreements sometimes known as deed restrictions. And, as founder

Dr. Ann Croissant at the Rt. 66 Republican Koffee Klatchers monthly meeting on March 11 in Glendora.

of two non-profit conservancies, she believes in the non-profit conservancy approach as a realistic option, and one that could be the best option and should never be excluded from the discussions.

We've seen Cong. Judy Chu propose what many perceived as a government take-over of our San Gabriel Mountains when her National Recreation Area legislation surfaced. When that failed, the Obama administration took a short cut and declared most of the area a national monument. When that occurred a committee was established to review the area to protect all that property, and create a plan within three years to address recreational and environmental issues. That is being done currently but raises questions.

First, will there be enough money for the recreation needs being asked to be restored and preserved and maintained? National Park Service, last I heard, had a \$12 billion deferred maintenance backlog.

And more importantly, Department of Forestry has been in charge of most of that land almost forever and has been severely underfunded for a lot of years causing a lack of proper maintenance. Dr. Croissant is concerned as this Plan moves forward will there be adequate resources and knowledge about environmental issues to do the work in the San Gabriels they really do deserve given the treasure

trove of environmental resources they hold.

As side note to the environment, Ann talked about the economics and health benefits of open space and green belts. Did you know:

• 40% more value is added to land/homes in or next to open space?

• 20% value is added when next to cosmetic open space like Finkbiner Park?

• Next to a golf course would added 20% to the value?

And another did you know -Studies done show those with a mental illness in a room with no windows to view mountains or green space recuperate far slower than those in rooms with windows viewing the mountains and open areas with lots of greenery.

And, to answer the question --Why is environmental planning and care more Republican than Democrat?

For me personally, it is attitude. The Republican attitude that less government is better; and, local government is best because those affected have the opportunity to participate to a greater extent and provide options for a better community than government.

Ann suggested going to a Water Quality Authority Board meeting or other local government meeting. Google them and go. It is your government - you own it.

Approved by voters in November 2006, Measure I, or the Arcadia Neighborhood Schools, Health, Safety and Repair Measure, authorized \$218 million of general obligation bonds to be spent solely for the improvement and modernization of Arcadia Unified School District (AUSD) schools and facilities. Fiscal management of the bonds has been overseen by AUSD Business Services, headed by Assistant Superintendent Christina Aragon. "We constantly keep an eye out for opportunities to be sound stewards of Arcadia taxpayer money," said Assistant Superintendent Aragon. In light of the bonds' call date occurring this year, AUSD Business Services partnered with a financial advisor to examine the option of refinancing. "By refinancing these bonds, we will be able to take advantage of current interest rates that are lower than those originally available in 2007," Aragon explained. "It will come at no cost to AUSD, and although it will not directly benefit AUSD, it will save Arcadia taxpayers over \$40 million in taxes. The savings are exclusively for the taxpayers." The savings will be seen over the life of the repayment plan, which will save taxpayers, on average, 10 percent each year from taxes related to these bonds. Measure I funding was approved for the purpose of making structural improvements to AUSD schools. To date, every project on the district's original capital improvement list has been
