# PUBLIC NOTICE SUMMARY OF PROPOSED ORDINANCE OF INTENT TO ADOPT AN URGENCY ORDINANCE

**GLENDORA CITY COUNCIL** 

NOTICE IS HEREBY GIVEN that on March 26, 2019 at 7:00 pm, or as soon thereafter as the matter may be heard, the City Council of the City of Glendora intends to adopt an Urgency Ordinance, entitled

## AN URGENCY ORDINANCE OF THE CITY COUNCIL OF THE CITY OF GLENDORA, CALIFORNIA, ADDING Chapter 13.20 of Title 13 OF THE GLENDORA MUNICIPAL CODE

## SUMMARY:

The Council will be considering adoption of a proposed URGENCY Ordinance that will Add a new Chapter 13.20 to Title 13 of the Glendora Municipal Code to establish an ordinance to allow and regulate wireless telecommunications facilities in the public right-of-way (PROW) and corresponding design standards and special procedures for small wireless facilities (SWF). The proposed ordinance and corresponding design standards and special procedures for SWFs are in response to recent legal standards imposed by the FCC (the "FCC Order"). The FCC Order was issued on September 27, 2018. As drafted, the proposed ordinance would enact the same regulations as proposed by Ordinance:

- For all wireless facility installations in the PROW, the ordinance provides, among other regulations, new permit and review procedures as well as the operation and maintenance standards. The ordinance treats wireless installations in the PROW similar to other installations in the PROW by requiring an encroachment permit. Once the encroachment permit is issued, the carrier may still need to obtain traffic control plans, construction permits and if necessary, a license to attach to PROW infrastructure.
- The proposed ordinance presents an entirely new administrative review process for SWF applications, with the Director of Public Works taking the lead of administratively reviewing SWF applications.
- Major wireless structures in the PROW shall continue to be subject to hearing and discretionary review.
- The new ordinance recognizes, and establishes procedures and standards for, "eligible facility requests" pursuant to Federal law. These are ministerial modifications and collocations that must be approved by-right pursuant to Section 6409 of the Federal Spectrum Act (47 CFR § 1.40001 - Wireless Facility Modifications).
- The ordinance contains a comprehensive list of permit conditions that will apply to wireless encroachment permits, including insurance requirements, indemnity, performance bond for removal upon abandonment, and maintenance and inspection requirements. The permits are in effect for a term of 10 years, which stems from a State law that allows the City to limit the permits to 10 years; compared to utility poles, for example, which are erected in perpetuity
- The ordinance allows the flexibility needed in the face of rapidly changing wireless laws and technology. Rather than publish SWF design standards in the ordinance, it is proposed that such standards should be adopted as administrative regulations that may be readily and quickly adapted given the frequency and magnitude of changes in law and technology surrounding wireless installations.
- To accompany the new ordinance, staff has also prepared a separate City Council Policy that will provide the industry direction on the City's aesthetic, location and design requirements.

Ordinance is being proposed as an URGENCY measure based on the following grounds:

- The global wireless telecommunications industry has developed and is starting to install SWFs primarily in public rights-of-way. SWFs are designed to accommodate "5G" technology. Wireless telecommunications providers have made inquiries with the City of Glendora and other California cities about installing SWFs in municipal rights-of-way, and some other California cities are already receiving applications for such facilities
- The Federal Telecommunications Act of 1996 preempts and declares invalid all state and local rules that restrict entry or limit competition in both local and long-distance telephone service, and the FCC has adopted regulations for the implementation of that Act
- Section 7901 of the California Public Utilities Code authorizes telephone and telegraph corporations to construct telephone or telegraph lines along and upon any public road or highway, along or across any of the waters or lands within this state, and to erect poles, posts, piers, or abatements for supporting the insulators, wires, and other necessary fixtures of their lines, in such manner and at such points as not to incommode the public use of the road or highway or interrupt the navigation of the waters.
- Section 7901.1 of the California Public Utilities Code confirms the right of municipalities to exercise reasonable control as to the time, place, and manner in which roads, highways, and waterways are accessed, which control must be applied to all entities in an equivalent manner and may involve the imposition of fees.
- The FCC adopted its FCC Order expressly to "reduce regulatory barriers to the deployment of wireless infrastructure and to ensure that our nation remains the leader in advanced wireless services and wireless technology." (FCC Order, ¶29.) The FCC Order is intended to facilitate the spread, growth, and accumulation of SWFs over a short period of time in order to enable deployment of technology that the FCC Order claims will enable increased competition in healthcare, Internet of Things applications, lifesaving car technologies, and creation of jobs.
- SWFs are primarily installed within public rights-of-way and as such create significant and far-reaching local concerns about traffic and pedestrian safety, land use conflicts and incompatibilities including excessive height of poles and towers; creation of visual and aesthetic blights arising from excessive size, heights, noise or lack of camouflaging of wireless facilities including the associated pedestals, meters, equipment and power generators, and protection and preservation of public property, all of which may negatively impact the unique quality and character of the City and the public health, safety and welfare thereof. Accordingly, regulating the installation of SWFs in the public right-of-way is necessary to protect and preserve the aesthetics in the community, as well as the values of properties within the City.
- The FCC Order sets forth new standards for state and local government regulations of SWFs, which standards restrict the aesthetic requirements that localities can imposed upon such facilities. Any aesthetic standard adopted by cities must be: (1) reasonable, (2) no more burdensome than those applied to other types of infrastructure deployments, and (3) objective and published in advance.
- That portion of the FCC Order requiring aesthetic standards for SWFs to be reasonable, no more burdensome than on other infrastructure, and objective and pre-published, goes into effect April 15, 2019. Standards that are not published in advance of that date will not be enforceable as to any application incoming to the City until proper standards are published. Ad hoc aesthetic standards are not enforceable. Cities that have aesthetic, spacing, or undergrounding standards currently in place may continue to judge applications against their current standards. However, by April 15, cities may only enforce aesthetic, undergrounding and spacing standards that are reasonable, no more burdensome than those applied to other types of infrastructure deployments, and objective and published in advance.
- Without the immediate implementation through an urgency ordinance of regulations specific to the siting of SWFs in the public right-of-way, the City Council will be unable to adopt and implement such regulations before the April 15, 2019 effective date for design standards. The petition requests authority to administer the estate under the Independent Administration of Estates Act. (This authority will allow the personal representative to take many actions without obtaining court approval. Before taking certain very important actions, however, the personal representative will be required to give notice to interested persons unless they have waived notice or have consented to the proposed action.) The independent administration authority will be granted unless an interested person files an objection to the petition and shows good cause why the court should not grant the authority. A hearing on the petition will be held in this court as follows: APRIL 15, 2019 at 8:30 AM in Dept. 9 at the SUPERIOR COURT OF CALIFORNIA, COUNTY OF LOS ANGELES, 111 NORTH HILL STREET, LOS ANGELES, CA 90012, STANLEY MOSK - CENTRAL DISTRICT.

IF YOU OBJECT to the granting of the petition, you should appear at the hearing and state your objections or file written objections with the court before the hearing. Your appearance may be in person or by your attorney

IF YOU ARE A CREDITOR or a CONTINGENT CREDITOR OF THE DECEDENT, you must file your claim with the court and mail a copy to the personal representative appointed by the court within the later of either (1) four months from the date of first issuance of letters to a general personal representative, as defined in section 58(b) of the California Probate Code, or (2) 60 days from the date of mailing or personal delivery to you of a notice under section 9052 of the California Probate Code.

Other California statutes and legal authority may affect your rights as a creditor. You may want to consult with an attorney knowledgeable in California law.

You may examine the file kept by the court. If you are a person interested in the estate, you may file with the court a Request for Special Notice (form DE-154) of the filing of an inventory and appraisal of the estate assets or of any petition or account as provided in Probate Code section 1250.
