Project Location: The City of Covina is located in the East San Gabriel Valley region of Los Angeles County, approximately 20 miles northeast of downtown Los Angeles. The Covina Town Center Specific Plan area is in the central portion of the City, encompassing the City's Civic Center District and historic Citrus Avenue District.

Project Description: The City of Covina proposes an update to the Covina Town Center Specific Plan. The Town Center Specific Plan identifies the long-term vision and objectives for private development and public improvements within the Plan Area. The proposed Update establishes land use, transportation, infrastructure, and urban design strategies to promote transit-oriented development. provide increased opportunities for rail ridership, improve first/last mile opportunities, and revitalize and reinvigorate Covina's town center. The Town Center Specific Plan Update provides new development standards and incentives for high density/transit-oriented housing, and for the redevelopment/ rehabilitation of existing structures, particularly regarding underutilized buildings and properties. Streetscape featuring pedestrian and bicycle enhancements will link the Metrolink station to Covina's historic shopping district the local hospital/medical area, and the envisioned "maker district" known as the F.A.I.R. (Food, Arts, Industrial, Residential) District. These will further the vision of the Town Center

The Town Center Specific Plan Update establishes a new boundary for the Plan Area, adding both sides of the residential Center Street, and expanding the northeastern boundary to include the Metrolink adjacent to Kelby Park and the vacant Vita Pakt site. The proposed Planning Area is 236 gross acres (an increase of 66 acres).

Based on growth projections provided by the Southern California Association of Governments (SCAG), the proposed components of the Town Center Specific Plan Update, and an analysis of existing underutilized sites that may be redeveloped, a development capacity has been forecast through a projected horizon year of 2040 (shown in Table 1, Project Year 2040 Land Use). The City estimates that the Specific Plan update will support total gross property development of approximately 2.35 million square feet of retail, office, industrial, and public facility building space and 746 dwelling units through the year 2040. The Specific Plan update would therefore support a total net increase of approximately 448,800 square feet of non-residential uses, 259 additional new dwelling units, and 745 more residents over existing conditions.

Implementation of the Project would result in potentially significant impacts related to the following environmental topics, which could be reduced to a less-than-significant level with the identified mitigation measures: biological resources; cultural resources; noise/vibration; and tribal cultural resources. Significant unavoidable impacts were identified for air quality and greenhouse gases. The Notice of Availability of the Draft EIR was published in the San Gabriel Valley Tribune on August 1, 2018. and the Draft EIR was released for a 45-day public comment period beginning on August 19, 2019, and ending on October 2, 2019
