College Street, Covina, CA, on Tuesday, September 1, 2020, at 7:30 p.m., or as soon as possible thereafter, to consider recommendations to the City Council on the following Project:

Covina Town Center Specific Plan Amendment (CTSPA) No. 1: A request to amend various Chapters of the adopted 2019 Covina Town Center Specific Plan (CTCSP) by adding Transit Oriented Development (TOD)/High Density Residential (HDR) as a conditionally permitted use in the FA.I.R District, adding land use categories to Chapter 3, and clarifying the language in various chapters for consistency and housekeeping purpose. The following list the proposed amendments:

- Amend page 2-8 of Chapter 2 to add the following language: "Catalyst sites or other sites in the F.A.I.R District that are within ½ mile of Covina Metrolink Station may request TOD/HDR zone for land use density, design guidelines and standards for new mixeduse development subject to a Conditional Use Permit."
- - Amend Table 3-2 on page 3-23 of Chapter 3 as follows:

Covina Town Center Specific Plan Amendment (CTSPA) No. 2: A request to amend Table 3-1 of Chapter 3 of the adopted 2019 Covina Town Center Specific Plan (CTCSP) for housekeeping and consistency purpose, by changing the Floor Area Ratio (FAR) for mixeduse project under the Transit Oriented Development/High Density Residential (TOD/HDR)

	Non-Residential Building Intensity (FAR) (parcel less than 0.50 acre)	(parcel more than 0.51 acre)
TOD/HDR	0.75 Standalone Residential	1.0 Standalone Residential
	From 1.0 to 1.5 (FAR) - Mixed Use	From 1.25 to 2.0 (FAR) - Mixed Use

Pursuant to and in accordance with the provisions of the California Environmental Quality Act (CEQA) Guidelines, the City has analyzed the proposed modifications, as compared to the original CTCSP Project. Based on the full analysis of the modifications, which include only minor technical changes or additions, the City concluded that an Addendum to the adopted Environmental Impact Report (EIR) could be prepared. State CEQA Guidelines (Sections 15162 and 15164) provide that an Addendum to an adopted EIR may be prepared if none of the conditions triggering a subsequent EIR are present. The modifications do not change the nature of the environmental impacts associated with the project, which remain the same as levels described in the certified 2019 EIR, and none of CEQA Guideline 15162's criteria is triggered. Thus, a subsequent or supplemental environmental document is NOT required to be prepared. In particular, there have been no:

- Substantial changes proposed for the Project that will require major revision of a previous Negative Declaration due to the involvement of new, significant environmental effects or a substantial increase in the severity of previous identified effects;
- Substantial changes with respect to the circumstances under which the Project is undertaken, requiring major revision to a previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified ones: and.
- New information of substantial importance that was not known or could not have been known without the exercise of reasonable diligence at the time the previous EIR was adopted that shows any of the following:
 - The Project will have one or more significant effects not discussed in the previous
 - Significant effects previously examined will be substantially more severe than disclosed in the previous FIR :
 - Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the Project, but the Project proponents decline to adopt them.
