DO YOU WANT TO HELP PREVENT COVID-19?

Are you a healthy volunteer between the ages of 18 and 54 years who has not been diagnosed with COVID-19 disease or directly caring for COVID-19 patients? You may be eligible to take part in the City of Hope vaccine study.

NOW ENROLLING

City of Hope's COVID-19 vaccine study is now enrolling healthy volunteers between the ages of 18 and 54 years who have not been diagnosed with COVID-19 or directly caring for COVID-19 patients.

WHY SHOULD YOU PARTICIPATE?

At City of Hope, we know that joining a clinical research study is a very personal choice. Studies are important for medical advances, and current treatments for diseases and conditions are only available because of study volunteers. Your participation will contribute to what is known about COVID-19 prevention with vaccines.

WHO CAN PARTICIPATE?

Healthy volunteers between the ages of 18 and 54 years who are not pregnant, have never been diagnosed with COVID-19 and are not directly caring for COVID-19 patients may be eligible to take part in this vaccine study.

Participants in clinical research studies should represent the population that may ultimately be receiving the drug, in this case, a vaccine. City of Hope is committed to including volunteers from all backgrounds, genders, races and ethnicities in this study.

WILL IT COST ME ANYTHING TO PARTICIPATE AND WILL I GET PAID?

There will be no costs to you or your insurance for participating in this research. You will receive \$50 per completed study visit. Participants will also receive \$100 for each referred friend or family member who qualifies and enters the study.

WHAT MAKES THE CITY OF HOPE INVESTIGATIONAL VACCINE UNIQUE?

City of Hope's investigational vaccine is built on a Food and Drug Administration-approved and widely used platform known as MVA (modified vaccinia ankara). MVA vaccines tend to produce an immune response quickly — in less than 14 days — and have been shown to be safe and effective in vulnerable, immunocompromised patients such as cancer and transplant patients

City of Hope's vaccine is designed to produce antibodies that may block the virus from entering cells. It is also designed to spur abundant T cell production and long-lasting T cell immunity, both of which may be key to providing long-term protection against future infection.

To see if you or a family member may qualify to volunteer, please call us toll free at 833-908-4673 $\textbf{(HOPE)} \ or \ email \ us \ at \ \textbf{COVIDVaccine} \\ \textbf{@coh.org}. \ A \ study \ staff \ member \ will \ walk \ you \ through \ a \ few$ eligibility questions and next steps.
